

IKON SPECIALIZES IN IMPACT-RATED WINDOWS AND EXTERIOR DOORS (RESIDENTIAL AND COMMERCIAL).

WHAT ARE IMPACT-RATED PRODUCTS?

Impact-rated products are building materials designed to withstand the impact of debris and high winds during severe storms and hurricanes.

WHY ARE IMPACT-RATED PRODUCTS THE RIGHT SOLUTIONS FOR ME?

Impact-rated products offer several significant benefits. Here are a few:

Safety. They can withstand strong impacts, thereby reducing the risk of shattered glass and structural damage during a storm. Furthermore, they offer an added layer of security, making it difficult for intruders to gain access to your property.

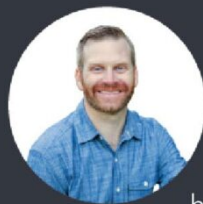

Savings. By keeping your home cooler in the summer and warmer in the winter, they can potentially lower your energy bills. Impact-rated windows feature UV-resistant coatings that protect your belongings from the sun's harmful ultraviolet rays, reducing fading and damage. And installing impact-rated products can sometimes lead to reduced homeowners' insurance premiums.

Peace of Mind. Knowing that your home is equipped with impact-rated windows and exterior doors can provide peace of mind during hurricane season, reducing stress and anxiety related to potential storm damage.
